January 2017

Dear State Center Supporters,

State Center has much to offer, whether it's to those new to the community or to its life-long residents. With its civic organizations and clubs, six churches, public parks, restaurants and numerous businesses, State Center offers a wide array of activities for all ages and interests.

The State Center Development Association is conducting its 2017 Fund Drive. We are asking you to join our efforts to continue our community beautification and development. State Center was named a Main Street Iowa Community in 2000. The last seventeen years have yielded many successes and accomplishments, but there is still more to do, such as the present restoration of Evan's Café building back to its original 2 story structure. Farmers Market, Watson's Fall Festival, Christmas on Main, and Centre Station Depot are other projects happening in 2017.

Year after year, State Center has been the recipient of awards from Main Street Iowa. We have been recognized for our hard work and for the many projects completed by our volunteers, projects that improved the State Center area. These could not be done without the assistance of community members like yourselves. Please consider donating to the State Center Development Association where you can see your money at work!

These projects require many hours of volunteer labor and much monetary support. Please consider making a contribution to show your support of our past and ongoing projects. All donations are tax deductible. We are also asking you to consider volunteering; we have projects of all sizes and for all ages and skill levels. What better way to show your community pride! We hope we can count on you to partner with the SCDA and State Center, a community we are all proud of.

Thank you for your support!

Sincerely,

Jim Eckhardt, President
